VOLUME- 10

FROM THE CHAIRMAN'S DESK

As we approach the Christmas season and the end of another academic year, it is a moment to reflect on the journey we have shared. Each year brings its own experiences — achievements to celebrate, challenges to overcome, and lessons that help us grow stronger. Despite the fast pace of life, we are reminded to pause and appreciate the many blessings around us.

Christmas is a time to honour the values of compassion, generosity, and goodwill. It encourages us to extend kindness to others, recognise the support of our families, teachers, and staff, and be grateful for the harmony within our school community.

As we look forward to the New Year, let us carry with us a renewed sense of purpose and hope. May we continue to work together to enrich our institution, strengthen our educational mission, and encourage every child at JWS to dream boldly and achieve confidently. The continued success of our school is made possible by the dedication of our staff, the involvement of our parents, and the enthusiasm of our students.

May this festive season bring peace, warmth, and happiness to every home. Wishing the entire Jindal World School family a Merry Christmas and a prosperous New Year.

FROM THE DIRECTOR'S DESK

Air pollution in Delhi NCR has become a serious concern, and it is important for all of us to stay aware and take action together. The rise in smoke, dust, and harmful particles affects children the most, making it harder to breathe and causing cough, headaches, and tiredness.

But we are not helpless — small steps from each family and each child can bring a big change. Wearing a mask outdoors, avoiding activities during high-pollution hours, drinking plenty of water, and keeping rooms clean and fresh can protect our health.

As a community, we can also work toward a cleaner environment. Planting trees, reducing vehicle use, avoiding crackers, and never burning waste are small habits that create a strong impact. When students see their parents making these choices, they learn responsibility, discipline, and respect for nature.

Let us move forward with the belief that clean air is a right, and protecting it is our shared duty. Together, as the JWS family, we can build a healthier, greener future for our children.

“Learn. Lead. Inspire.”- JWS

Dec 24 : National Consumer Rights

FESTIVALS

Dec 25 : Christmas Day

FESTIVALS

Christmas celebration is the commemoration of the birth of Jesus Christ. Christmas is derived from the Old English term "Cristes Maesse," meaning the Mass of Christ. Christmas is a time for togetherness, with families and friends spending time with each other through traditions like decorating trees and sharing special meals. It promotes themes of love, peace, and goodwill toward others through acts of charity and giving to those in need.

Origin of Christmas

The first known date of Christmas being rejoiced on December 25th was in 336 AD, through the time of the Roman Emperor Constantine who was the first Christian Roman Emperor. After some years, Pope Julius I formally announced that the birth of Jesus would be rejoiced on the 25th December.

There are various diverse traditions and theories justifying the reason of Christmas being celebrated on December 25th. A quite primitive Christian custom supposed that the event when Mary knew that she will give birth to a special child, Jesus, called the Annunciation was on March 25th - and thus still rejoiced currently on the 25th March. Nine months later the 25th March is the 25th December. March 25th was even

the occasion few early Christians across the globe had made up, and even the day that Jesus passed away on when he was a grown person.

Children are mostly excited due to the gifts they receive from the Santa Claus. So students get ready and make your own wish list for the Christmas this year.

 *Dear Santa* Date: _____

My name is: _____
 I am _____ years old today
 This year I have been:

Nice  *naughty*

My Christmas List Wishes:

NEWS SPOTLIGHT

NOV 2: Magnificent India lift maiden ICC Women's Cricket World Cup

The DY Patil Stadium was a sea of emotions as Team India produced a spectacular show in the final. against South Africa to lift their maiden ICC Women's Cricket World Cup. On a starry Sunday night in Navi Mumbai, joy, relief, and tears flowed as India beat South Africa by 52 runs to claim the coveted trophy. The semi-finals beckoned, and in the big clash against Australia, Team India produced magic. They chased down a record 339 — the highest successful run chase in Women's ODI history — to storm into the final. Jemimah Rodrigues led the charge with an innings of a lifetime, an unbeaten 127*(135) in front of a rapturous Navi Mumbai crowd. She added 167 crucial runs with captain Harmanpreet Kaur, who struck a brilliant 89(88). Deepti Sharma, Richa Ghosh, and Amanjot Kaur chipped in with vital

cameos as India completed the chase with five wickets in hand and nine balls to spare. Riding on confidence and momentum, India carried that form into the final, defeating South Africa to create history.

India has called the Delhi blast an 'act of terror'

On 10 November 2025, a car exploded near the [Red Fort](#) in [Delhi](#), India, killing at least 15 people and injuring more than 20 others. According to the [Delhi Police](#), there were two to three people inside the car at the time of the explosion. The preliminary police findings indicated that the blast may have been a possible [suicide attack](#), and the police have been investigating whether the incident was a deliberate [terrorist](#) act. On 12 November, the [Indian government](#) labeled the incident as a terrorist act.

WINTER STUDY ROUTINE

A winter study routine should include planning, a consistent schedule with dedicated study blocks and breaks, and creating a comfortable yet focused environment. To enhance productivity, incorporate warm beverages and healthy snacks, take advantage of natural light, and ensure you get enough sleep and exercise.

Plan and structure your time

- Plan specific hours for studying, incorporating both difficult subjects and revision.
- Allocate specific hours for breaks and fun activities to create a healthy balance.
- Schedule your most challenging work during the times of day when you are most alert and productive.

Optimize your study environment

- Use a comfortable chair, not a bed or sofa, to keep your study and relaxation areas separate.
- Have a warm blanket or robe available, and set up a good lighting source, possibly with a warm-toned lamp.
- Declutter your desk to improve focus.

Stay energized and motivated

- Sip on warm tea, coffee, or other hot drinks to stay warm and focused.
- Fuel your brain with healthy, energy-boosting snacks like nuts, fruit, or yogurt, and have warm meals for energy.
- Use techniques like the Pomodoro Technique (e.g., 25 minutes of study followed by a 5-minute break) or the 5-10-15 method to prevent burnout.
- Make time to get some natural sunlight during the day, even if it's just a 15-minute walk, to boost your mood and energy. Incorporate light exercise like stretching to stay active.

Maintain well-being

- Ensure you are getting enough sleep to be well-rested and productive.
- Drink plenty of water throughout the day.
- Minimize distractions by putting away your phone or using website blockers if necessary.
- Unwind by spending time with family or engaging in a relaxing activity without looking at screens.

MORAL STORIES

THE PROUD ROSE

In the desert existed a rose and a cactus. The beautiful rose would take every opportunity to insult the cactus. The other plants tried to defend the cactus, but the rose was too obsessed with its own looks. There was no water during a particularly hot summer. The rose started to wither away. But the cactus had become a source of water for sparrows. The rose asked the cactus for water, and the nice cactus readily agreed.

Moral: Never judge someone according to how they look.

लोमड़ी की चालाकी

एक दिन एक लोमड़ी एक चीतों के समूह में शामिल हो गई। लोमड़ी बहुत चतुर थी, लेकिन चीतों के बीच में वह अपनी पहचान खो बैठी। उसे लगा कि अगर वह चीतों जैसा दिखने लगे तो उसे कोई न पहचान पाएगा। उसने अपनी चालाकी से चीतों के बीच घुलने की कोशिश की, लेकिन उसका धोखा जल्द ही पकड़ में आ गया। चीते ने लोमड़ी की पहचान को पहचाना और उसे बाहर कर दिया। लोमड़ी को समझ में आया कि धोखा कभी भी सफल नहीं होता और अपनी असली पहचान को छिपाना अच्छा नहीं होता।

मूल शिक्षा: धोखा देने से हमेशा नुकसान होता है। अपनी असली पहचान को छिपाना या बदलना कभी अच्छा नहीं होता, हमेशा सच्चे और ईमानदार रहना चाहिए।

QUIZ TIME

- Who invented Radio?
 - Ans. Guglielmo Marconi is known as the father of radio.

- Name the largest 'Democracy' of the world?
➤ Ans. India
- Which is the smallest bone in the human body?
➤ Ans. Stapes (Ear bone)
- Name the country known as the Land of the Rising Sun?
➤ Ans. Japan
- Name the hardest substance available on Earth?
➤ Ans. Diamond
- Name a shape that has ten sides?
➤ Ans. Decagon
- Who is the real founder of Microsoft?
➤ Ans. Bill Gates and Paul G. Allen
- Name a natural satellite of Earth?
➤ Ans. Moon
- What is the chemical symbol for water?
➤ Ans. H₂O
- Which animal is known for its intelligence and ability to use tools?
➤ Ans. Chimpanzee
